

Abubakr Ali Mahmoud

Junior Full Stack Developer

✉ bkarali345@gmail.com ☎ 01111045313 📍 Cairo / Helwan [in LinkedIn](#) [Github](#)

Summary

Full Stack Developer with a strong foundation in modern web development, specializing in React, Next.js, TypeScript, and the MERN stack. Experienced in building responsive, scalable, and user-focused web applications while applying clean code principles and best development practices. Passionate about solving real-world problems, continuously learning new technologies, and contributing to high-performing engineering teams.

Education

Bachelor's Degree in Accounting

Teba Academy

2022 – 2026

Skills

Frontend: HTML5 | CSS3 | JavaScript (ES6+) | TypeScript | React.js | Next.js | Redux Toolkit | Zustand | Tailwind CSS | Bootstrap | Axios

Backend: Node.js | Express.js | MongoDB | REST APIs | JWT Authentication

Tools: Git | GitHub | Postman | Figma

Projects

[Assel E-Commerce](#)

React.js | Next.js | TypeScript | Redux Toolkit | Tailwind CSS

- Developed a modern and responsive e-commerce web application with a clean and intuitive user interface.
- Implemented product browsing, filtering, shopping cart, and dynamic product details.
- Integrated REST APIs and managed application state using Redux Toolkit.
- Optimized performance and reusable component architecture following modern React best practices.

[MERN Authentication System](#)

React.js | Next.js | Zustand | Node.js | Express.js | MongoDB | JWT

- Built a full-stack authentication system using the MERN stack with secure JWT-based authentication.
- Implemented user registration, login, protected routes, and role-based authorization.
- Developed RESTful APIs with Express.js and MongoDB following MVC architecture.
- Connected the frontend with the backend using Axios and handled authentication state efficiently.

[Personal Portfolio](#)

React.js | Next.js | TypeScript | Tailwind CSS

- Designed and developed a personal portfolio to showcase projects, technical skills, and professional profile.
- Built a responsive and optimized user interface with modern UI/UX principles.
- Implemented reusable components and optimized application performance using Next.js.
- Structured the project for scalability and maintainability with clean code practices.

Management App (In Progress...)

Building a full-stack management system to streamline business operations, manage users, tasks, and workflows through an intuitive dashboard.
